

The scene is set in a classroom with wooden floors and walls. A female Eevee with yellow fur, red-tipped ears, and red eyes stands on the left, wearing a white lab coat over a black skirt and black heels. She has her arms crossed and a confident expression. In the background, a chalkboard displays a diagram of a human figure with arrows pointing to various body parts, labeled with terms like 'Tannerulations', 'size', 'shape', and 'suppleness'. A wooden chair is positioned on the right. Several speech bubbles contain text from characters in the scene.

Me!

I'm looking for a student
willing to be hypnotized by me,
and transformed
by my magic...Do I have any
volunteers?

Pick me!

Eevee boy in front. Look at you,
raising your hand
quietly and obediently. The idea of letting
me take control gets your heart
racing, doesn't it?

Come on up.

Meeeee

I raised my hand first!

Pick me!

Me. Me.

— Pay attention, class.
This is a very popular spell. You
must learn this spell if you
want to succeed.

Now, this isn't a card trick, there
are no magic words, you must focus your will
onto your target.

Relax them. Please them. They must
believe they want to change.

You'd love to be turned into a girl, wouldn't you, Eevee?

Yes, Ms Phox

Good boy.

I want you to empty your mind. Flush out all those thoughts, leaving only my words. Feel your chest start to grow, your hips widen.

That masculinity is fleeting, though I imagine your attraction to me hasn't diminished.

Almost there, little eevee. You're doing
so good for me. Just relax...Relax...undlench your jaw,
drop your arms to your sides.
Feel your entire body grow heavy. So heavy...

Empty out that brain. There should be
nothing left.
This is how you perfect the transformation, class.
Create a blank slate ready to be modified.

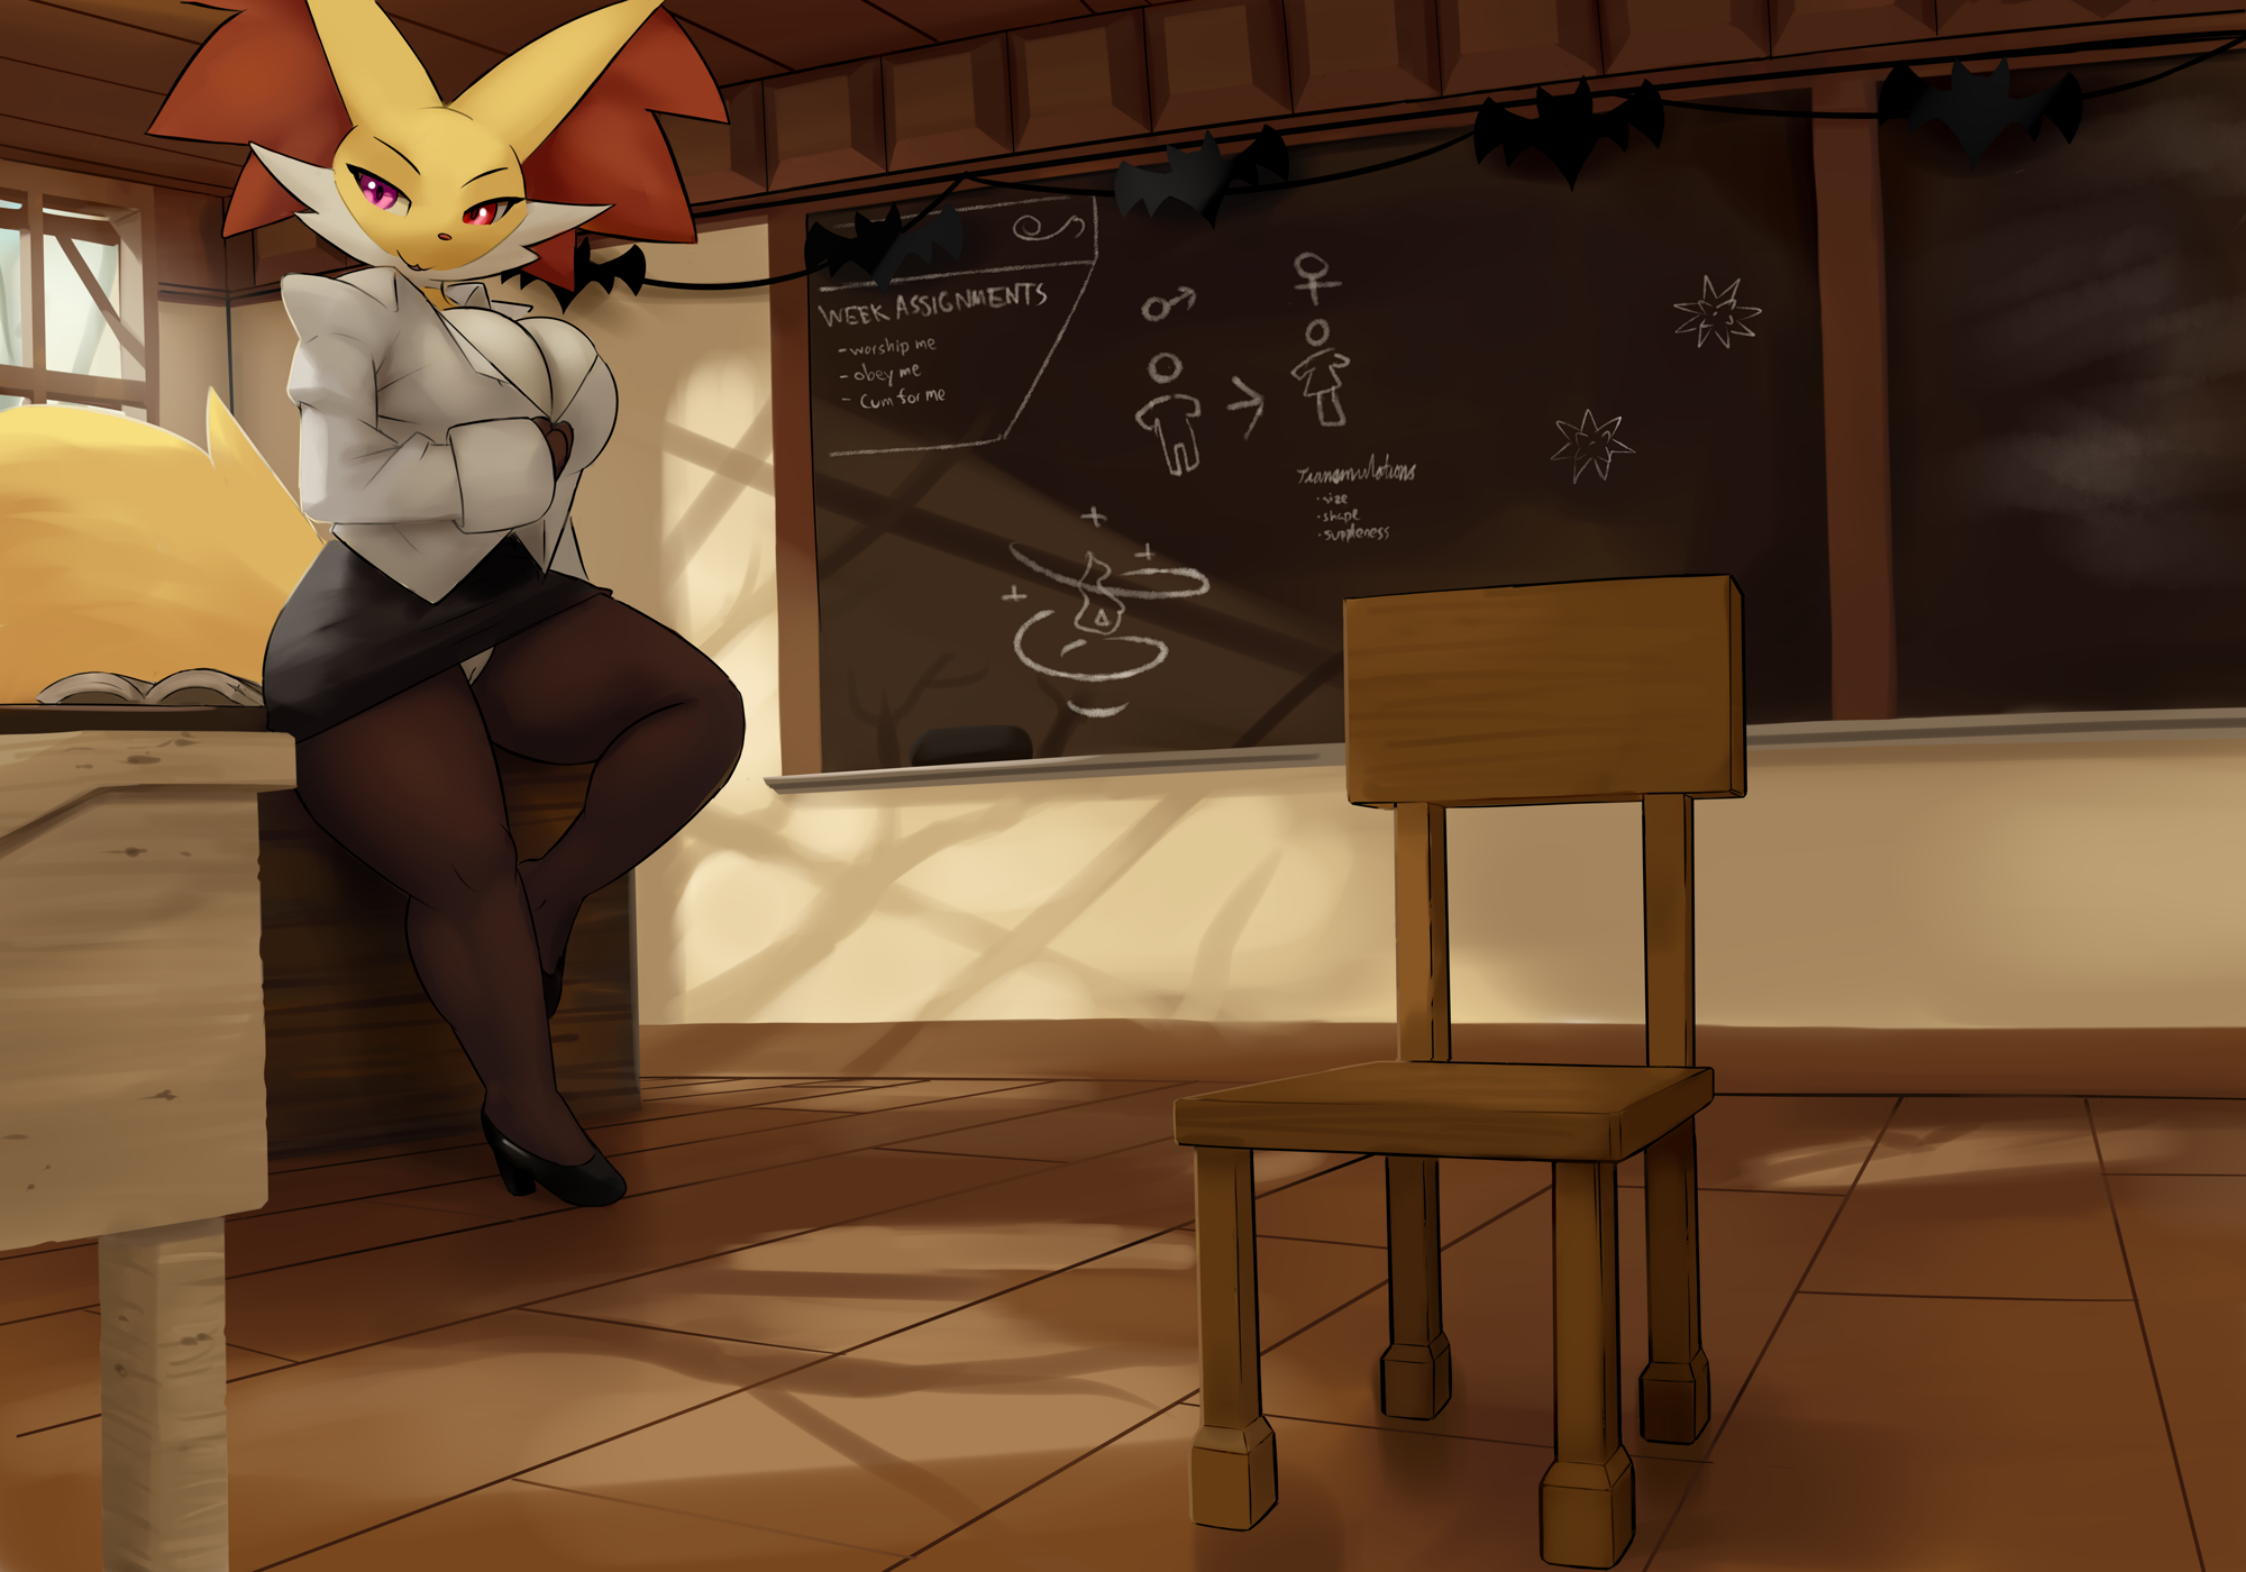

The transformation is complete...

It appears that's all we have time for today, students.
You're all free to go.

As for you, little eevee, why don't
you stay a little longer?

Yes, Ms Phox...

WEEK ASSIGNMENTS

- worship me
- obey me
- Cum for me

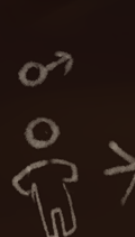

Transmutations
- size
- shape
- suppleness
